Product Data Sheet for Anise-Molasses Buds

PRODUCT CODE: 2672

APPLICATION:

A combination product with high levels of both anise and sweet molasses for use when an intense, long lasting, aroma and taste impact is desired. **Anise Molasses Buds** is particularly effective in feedstuffs where masking of unpalatable ingredients is needed and where anise aroma is desired.

USE DIRECTIONS:

Use 1.0 pound per ton of complete feed. This **Feedbuds**® product can be added with micro-ingredients and used in pelleted or blended feeds.

CHARACTERISTICS:

Pleasant anise and sweet molasses aroma. Free flowing, light brown powder. Compatible with all other feed ingredients.

INGREDIENTS:

Natural and artificial flavor ingredients, dried *Aspergillus oryzae*, *Aspergillus niger* and *Bacillus subtilis* fermentation product, sodium saccharin, monosodium glutamate, butylated hydroxytoluene (a preservative), calcium carbonate and roughage products.

STORAGE:

Store in a cool dry place. Keep covered when not in use. Product will remain stable for extended storage. Change in color from light to dark is a natural occurrence and is independent of product activity.

PACKAGING:

50 pound bags. Special packaging available upon request.

PURITY:

All flavor ingredients in this product are either approved for use in a regulation of the Food and Drug Administration or listed as being GRAS in a reliable published industry association list.
