Product Data Sheet for QT Calf-Lyte (Electrolyte for Calves)

PRODUCT CODE: 6974

APPLICATION:

An electrolyte designed for nutritional support in non-ruminating calves. **Calf-Lyte®** will:

- Aid in correction of dehydration and physiological imbalances associated with scours by supplying electrolytes, buffers and energy.
- Assist with conditioning of calves undergoing stress due to changes in diets and environment.

In addition to electrolytes, **Calf-Lyte®** provides:

- Lactobacillus acidophilus* (1 billion CFU's per 2 quart treatment) to aid in reestablishment of normal intestinal microflora and conditions.
- Ascorbic Acid (250 mg per 2 quart treatment) to counteract oxidative processes associated with stress.
- Milk Flavoring to enhance palatability and encourage consumption.

USE DIRECTIONS:

Prepare **Calf-Lyte®** solution by dissolving 2 scoops (approximately 76 grams) in 2 quarts of 100oF water. Feed in accordance with stated label directions for the 1 or 4 day feeding programs.

CHARACTERISTICS:

Free flowing, water dispersible, off-white powder.

INGREDIENTS:

Dextrose, Sodium Chloride, Glycine, Potassium Citrate, Monopotassium Phosphate, Magnesium Sulfate, Potassium Chloride, Calcium Chloride, Monosodium Phosphate, Calcium Pantothenate, Xanthan Gum, Silicon Dioxide, Sodium Silicoaluminate, *Lactobacillus acidophilus* Fermentation Product, Ascorbic Acid, Artificial Colors and Natural and Artificial Flavors Added.

STORAGE:

Store in a cool, dry place. Keep tightly closed when not in use.

PACKAGING:

The following packaging options are available:

- 3-pound screw cap plastic canister, 6 per case
- 5-pound poly-lined plastic pail, 6 per case
- 25-pound poly-lined plastic pail
- 50-pound multi-wall bag

A measuring scoop is included in each unit.
