Product Data Sheet for QT Aqua "C" (Coated Ascorbic Acid)

PRODUCT CODE: 6990A

APPLICATION:

Specialized form of coated ascorbic acid (Vitamin C) to be utilized in aquaculture rations. This unique formula will improve ascorbic acid stability during pelleting and extrusion processes, in addition to minimizing dissipation and/or chemical reactions in water and feed.

USE DIRECTIONS:

250 grams per metric ton of feed or use at a rate specified by a Nutritionist.

CONCENTRATION:

80% ascorbic acid by weight.

CHARACTERISTICS:

- White powder
- Stable form of Vitamin C for use in aquaculture feed pellets
- Reduced oxidation in the presence of heat and water
- Flowable powder for easy handling and formulation
- Coating repels water and will prevent leeching in the feed pellet
- Coating is broken down in the intestine of the aquaculture species, allowing maximum absorption
- Moisture is less than 5%

INGREDIENTS:

Ascorbic Acid, Calcium Phosphate, Calcium Silicates and Vegetable Oils. BHT and BHA (as preservatives).

STORAGE:

2 year shelf life under ambient conditions.

PACKAGING:

25 kilogram drum.
