FOR IMMEDIATE RELEASE

QUALITECH WELCOMES NEW SALES MANAGER!

February 22, 2011, Chaska, MN – Quali Tech® is proud to announce and welcome Alan Mais as the Regional Sales Manager for the Southeast Region. Mais will be responsible for driving revenue, creating and developing ongoing business relationships with new and existing customers as well as performing field sales activities.

He joins the Quali Tech team from Cereal Ingredients, Inc. located in Leavenworth, Kansas. During his tenure at Cereal Ingredients he increased sales on an average of 25% annually. Alan also launched a new product sales program in South America. He developed key relationships with brokers and clients to introduce ingredients in South America. At Cereal he also worked in the Research and Development department as a food scientist developing new flavors, colors and textures of ingredients for bread, cakes, muffins and cereal bars. Mr. Mais holds a BS in Food Business from University of Missouri – Columbia in Columbia, Missouri.

"I am thrilled to be part of the Quali Tech team. My entire career has been spent in the Food business industry and I look forward to continuing to grow the food ingredients business at Quali Tech."

Rudy Roesken, Vice President of Food Ingredients for Quali Tech, states "We are very excited to welcome Alan to Quali Tech. He will help bring a tighter focus on customer relationship to our sales team."

About Quali Tech, Inc.

Quali Tech®, located in Chaska, Minnesota, was founded in 1967 and is a privately held company owned by the Ploen family. Quali Tech is a leading blender of vitamins, trace minerals and drug components for the animal feed industry for over 40 years. Combining these discrete ingredients led the company into the development of new techniques for blendability and formulation to the creation of divisions for Plant Nutrition and Food Ingredient. Through the years, sophisticated processes, highly skilled technical staff and development capabilities were added; and today the firm provides product research, development and manufacturing to its clients worldwide.
