FOR IMMEDIATE RELEASE**Quali Tech Continues to Add Expertise to Product Development**

Dr. David Fennell joins Quali Tech® as Director of Product Development, Research & Quality Assurance and Ken Henderson as Product Development Chemist.

Chaska, MN, October 13, 2010 – Quali Tech®, maker of Carbomin® and a leading manufacturer of plant nutrition for over 4 years has recently hired Dr. David Fennell to head up the product development, research and quality assurance departments. Quali Tech is proud to welcome Dr. Fennell, a dynamic professional to the leadership team.

As Director of Product Development, Research & Quality Assurance, Dr. Fennell is charged with all facets of product development and quality assurance, including overall strategy, chemical expertise and manufacturing technology.

David has over 35 years of experience in product development, research and quality assurance in manufacturing business. Dr. Fennell brings an exceptional background to the company with a Master's Degree in Analytical Chemistry and PhD in Chemistry. He has worked for M&M Mars, Nabisco, Pepsico, Leaf UK/USA (Huhtamaki), Briess Industries and Quality Ingredients in a variety of roles, primarily Director or Vice President of Quality Assurance, Product Development and Operations, in England, France and United States.

Quali Tech would also like to welcome Ken Henderson to the research and development team. As the Production Development Manager, Ken will be formulating new products for animal and plant nutrition.

Ken has over 20 years experience in new product development, applications research and test method development. He holds two patents for boiler scale control. He is also a member of American Society of Quality (ASQ) – certified auditor and Association of Textile Colorists and Chemists (AATCC). Quali Tech is thrilled to have Ken on the research and development team.

I am excited to have Dr. Fennell and Ken working with the Quali Tech team," says Jeff Ploen, Vice President of Plant Nutrition. "The incredible experience and attention to detail both David and Ken can bring to Quali Tech will ensure that we will continue to develop the innovative and market-leading products our customers have come to expect," says Ploen.

About Quali Tech, Inc.

Quali Tech®, located in Chaska, Minnesota, was founded in 1967 and is a privately held company owned by the Ploen family. Quali Tech® is a leading blender of vitamins, trace minerals and drug components for the animal feed industry for over 40 years. Combining these discrete ingredients led the company into the development of new techniques for blendability and formulation that lead into Plant Nutrition and Food Ingredients. Through the years, sophisticated processes, highly skilled technical staff and development capabilities were added; and today the firm provides product research, development and manufacturing to its clients worldwide.
