FOR IMMEDIATE RELEASE

QualiTech Receives the Highest Grade from the British Retail Consortium (BRC) for the Sixth Consecutive Year

CHASKA, Minn. (May 31, 2016) QualiTech is pleased to announce the recent “AA” certification of its food processing facility under the British Retail Consortium (BRC) standard. BRC is a global leader in third-party food safety standards. QualiTech has been providing innovative nutrition solutions for over 45 years and is passionate about developing creative solutions that offer great flavor, texture, function and visual appeal in everything from bakery to beverages. By granting QualiTech its “AA” certification, the BRC recognized QualiTech’s quality and food safety systems as meeting the most stringent of standards. This is the sixth consecutive year QualiTech has received the highest possible grade from the BRC.

The BRC has been recognized nationally and internationally as the leader in food safety certification. As a member of the Global Food Safety Initiative (GFSI) the BRC certification adds an additional level of assurance that the supplier’s products have been produced, processed, prepared and handled according to the highest possible standards, at all levels of the supply chain. A growing number of retailers and major manufacturers in Europe and North America require this independent certification from their suppliers.

Chris Schaefer, Quality Systems Manager at QualiTech said, “I’m happy to announce that we’ve completed our latest BRC audit with good results. BRC version 7 recently came out with some new requirements and a slightly different scoring scheme, but thanks to the hard work of operations, maintenance, and quality staff we were able to attain the new highest score of “AA”.
